Desktop Barcode Printer

Industrial Barcode Printer

Barcode Labels

We as a barcode labels Manufacturers, are engaged in manufacturing and supplying an extensive range of Plain & printed Labels, which are applied in various industries.

Plain Labels : Our company offers Plain Labels for industrial and retail customers in varied sizes and materials for specific applications. We offers high standard plain labels in paper for Industrial and desktop printer Self adhesive labels is our speciality. We hold stock of the most commonly used plain label for fast delivery to our customer.

PLAIN BARCODE LABEL & PRODUCT LABEL

Pre Printed Labels : These Pre-Printed Labels have predesigned legends and are ready for immediate applications. In this section, customers will find Labels that we print and ship to you within 72 hours, including full color labels and sticker.

Product Labels : Permanent identification of products by a Label is common. These Labels need to be able to bond securely to the surface for its intended life and under in-use conditions such as a label on an automobile engine needs to be resistant to the heat and oils encountered and to be secure for many years of application.

PRE-PRINTED BARCODE LABEL & PRODUCT LABEL

Holographic Labels

Security holograms are labels with a hologram printed onto it for sale security reasons. Security holograms are very difficult to forge because they are replicated from a master hologram which requires expensive, specialized & technologically advanced equipment. They are used widely in several banknotes around the world, in particular those that are of high denominations.

Ribbons

Wax Ribbons : Most widely used for shipping, distribution & product identification labels. Different formulations are available depending on specific requirements. Wax ribbons are formulated in general purpose & low melting point for high speed printing.

Wax-Resin Ribbons : For labels which require increased scratch & smudge resistance. When used in combination with synthetic label stock, this ribbon will produce a label that is resistant to moisture & ultra-violet light. This type of label can stand up to exposure to rain, sun & cold. We provide wax-resin ribbons for flat head & near edge printers as well as in line printers.

Resin Ribbons : Most scratch & smudge resistant. Ideal for applications that require images to stand up to continuous use in factories & distribution centers. Certain formulations are steam press resistant & others are washable & dry-cleanable, used for Labeling. This ribbon only use in Polyester Labels.
